*THE BEST CHOICE...For your traffic control needs.
Serving our customers worldwide since 1985.*

ENFORCER™

- **Motorized In-Ground Traffic Spike System**
- **Stops Wrong Way Traffic—Both Directions**
- **Flush Mount to Road**
- **Left or Right Handed Units**

Guardian's ENFORCER™ In-Ground Traffic Spike Barrier System is designed and engineered for intermediate to high-threat security facilities requiring a higher level of access protection. The ENFORCER™ is a complete integrated package with a robust, full-featured and powerful gate barrier arm that delivers a formidable and intimidating visual deterrent. The ENFORCER™ has great stopping power by preventing the vehicle from unauthorized entry.

This totally self-contained design is extremely easy to install and set up, and provides exceptional value to the site that requires extra protection along with a cost-oriented solution for vehicular access control.

GUARDIAN reserves the right to make changes to specifications at any time
